JESUS

I

1. Do you know why it is difficult to tell someone something. It's hard to tell people because you are bound by words and you think through words. One word is always enough. It would not be true to explain the concept. Right word for wrong concept, right concept. You often use the wrong word for it.

2. In order for you to understand some things, you must first understand the concepts the words mean. correctly. If your mind was not closed, mental communication. Then human would be a. You would be able to instantly describe and evaluate everything and every concept. Now you can only understand it with a string of words.

3. Many phrases express false and incomplete concepts. But you should know, every. There is a very broad concept behind the word and the real concept is yours. Most of the time, it is not what you have conditioned and adopted.

4. It is difficult to tell you things that you do not know and have no background, even. Even for me. Because what I should impart in your mind, still in words by pouring you understand it with your upper self.

5. Do you know what it means "Mother" and what it means "Father". You say parent

gender without both. This concept is both true and false.
 If a person has sexual intercourse with another person, and if a male injects his sperm into a female
 the breed and the child if born of it. One becomes a mother and the other is a father. Both
 is a parent in your language.

6. A child who is not born from a woman who is not through sexual intercourse is a stepfather.
 for you. But this is not the concept of true fatherhood and motherhood. First of all this concept
 You must understand its meaning. Only then can you understand the language of the gods and
 when they say what they mean.

7. To be a father, a man must inject his sperm into the female and so on
 The child must be born through a womb. Do you think so? This is all wrong
 it is a chain of thought. Where does the father come from before injecting his own seed?
 this is the seed. The seed is formed inside the male first. How does a seed come from nothing?

8. The boy grows up and when his sexuality is awakened,
 starts reproductive fluids. They did not exist before. A power man from the outside
 does not put the seed in it. The seed is produced by the body of the man and becomes material.
 It will never come into being out of nothing. The formation of one thing, one substance, another
 but it is transforming into matter. That's why the man's body has other substances.
 makes it by transforming the seed. The seed in the man is his own body and
 it consists of the building blocks of our existence and they are actually the building blocks of it. The presence of the man and
 Ancestors and everything are present within those building blocks, and nothing extra. How
 If there is everything in a great tree in the seed of a great tree, it
 Everything in the man is essentially also in his own seed.

9. A man's seed is his own part and is his body and its continuation
 actually. His knowledge and energy and his experience and skill are stored in his
 Seed. Therefore, it is not "the father" who has sexual intercourse with the mother.
 male. Scientifically, without a mother, as it is done in your day
 a child if produced, and a child born, even if the copy is human. Of the building blocks that make up it
 the man he is taken from is the father of the child.

10. With the building blocks taken from a woman, even without a man and a man's seed

Copies can be made without giving the human. Then the donor female is the mother of the human being. Then the boy reproduced without the male building blocks. Just the presence of a woman carries the child and the woman's ancestors. Calling mother and father indicates only gender The transmitter. Therefore, whether a woman is a giver or a man, he is actually "from the parent".

11. Therefore, the gods are the parents of man and the world itself.
because the building blocks of man are taken from both the gods and the world.
The substance. You don't need the gods and the world to be parents

Page 3

To give birth by sexual intercourse as you understand, to become human parents. This so it is never figurative "Father" used for gods and the world and The words "mother" and "parent".

12. Man carries the building blocks of the gods and the earthly matter and the spirit of the world. That is why words such as "sons of god" are used constantly and they are always said. "Father" is for the god who is supposed to be the creator. In fact, the word "Father" does not indicate gender. for god. It was used in the male dominated years of humanity. to glorify and thus are entrenched in your languages and concepts but it could be god is also mother.

13. And that is why he is not a god actually Mother and not Father. A god is just a parent. And, but you can use these idioms as father and mother as for a god because to describe these words that fit in your tongue and your mind concepts.

14. If done the way you know, the child represents the man and is the man himself When the seed is injected into the woman, it grows in it and mixes with the building blocks of the woman. also the building blocks. This is very important for you to understand The Last of the Seers. Born any child is a mixture of both men and women.

15. Because of all this, Ben! I am the father of the First Son. Kain is my son. When that Adam and Eve united at my encouragement in the garden of the gods. I'm confused and I have added my building blocks to the existence of Kain. had In fact, both Adam and Eve had my building blocks

its creation. As you know.

16. So he is very strong and was in my way first son. So your first son and you also have my building blocks. My people carry me my constituents.

17. As I told you. When Eve conceived the first child came to wrath, the evil god and drove them into the world. As he wanted before he could complete it. Because it is impossible This had happened now. I warned them.

Page 4

18. Adam and Eve in the guilt and encouragement given to them in the world They stayed. These feelings were lies and their crimes were absent but the evil god committed it to them. They were conditioned to ask for forgiveness and, in their own mind, "Good" they wanted a son from the evil god.

19. In fact, this was the suggestion of the evil god to them. This time they're just united again to make a child. A sexual devotion to the evil god and made in his name it was unification. That's why he was far from me and he was under the influence of all bad of God's presence. They were literally in his protection envelope and to this kid Exactly the evil god had added his own building blocks.

20. Therefore he is the father of the second son, evil god. The hunter and the deadly second son. He had the building blocks of the evil god. And whether he wants it or not, the bad god is the same At the time my building blocks were also in the second son, how is the evil god If there are building blocks in the First Son. The building block of the evil god when less in the First Son, in the second son is much less My Building Block and body.

21. That is how it is that I am the father of the Birincioğul and the father of the second son. being an evil god. Therefore, it is not called Father according to your language. phrase". These words exactly indicate the truth.

22. That is God's adoption of a son. In the book of ignorant arab, this statement gets angry and it is rejected, but it is true. God's adoption of a son sexually with a human woman is not a merger. This is, in the acquired child, the building block of his own There is. The child is completely the continuation of his body.

23. And in the same way I have a son and a daughter for myself and more human the seeds when I was in his mother and father, my core pieces that I took from myself by adding to him.

24. Thus, the First Son was a part of Me and was my continuation. If the second son it was its continuation and tool. The truth was reflected in each child's own character qualifications of their fathers.

Page 5

25. The first humans and trial types, the first models Adam and Eve they were their children and neither is Mine. Because they were united of the matter of the world of the essence, the Spirit of the Earth, and the building blocks of all gods. I in them I was there too. Bad god too. That's why it was difficult to direct them exactly. for both sides. They were there. But the bad god worked more and He had usurped Adam. And Eve was closer to me.

26. First Son and Second Son were ready to breed on earth. They are the same mother and seen and known as father-born brothers and thus wanted to be known your by you and but this is not true. They are from the same human woman and human man born children, but human mother and human father are only they are nothing in the technique. Actually they are exactly separate souls, separate They body. They were of separate races and bodily builds. Each had a different building block. While the First Son was me, the second son was an evil god, and I wanted to believe in him and die for him. and for him he had a building block that allowed him to kill, to energize his lineage in the second son. And this wicked god prevented me from believing and finding truth The building block, for you, consisting of gene, DNA and other wholes you do not know building blocks. And the evil god from science and freedom and logic and art and building blocks that hate thinking and prevent them. But to believe him building blocks that envision being servants.

27. Now. This is according to my explanation in my six-story book that there is no lies and omissions and there is no deceit, here's what you should understand according to the knowledge of this book that is your mother and what is your father. A kind of human as he wants
 Couldn't he recreate the evil god? Why did he struggle so much? No. How much
 Even if he says otherwise, he can never create and create an existence out of nothing. This is his
 is its own claim. That's why he must use the material and shape it.
 her as she wishes.

28. See. Your own words in their scriptures. Isn't that fear, death?
 God of sorrow and depression, blood and destruction. She's not creative or beautiful
 a qualification.

29. You must learn to read and every information. People often stare
 but they don't see. You know that. Looking is separate and seeing is separate. watch
 it is completely separate. Likewise, there is a difference from reading to reading. reading
 you just read and pass a scripture of the evil god. But he listens

Page 6

You do not. Real information cannot pass through the thin membrane in your mind. Every text
 lines actually have two meanings and each text carries different signs.

30. Do not read just lines. Look between the lines. What degree
 a scripture of the evil god, in it, whatever changed, its line
 There is definitely an effect from me among them. To make it clear
 I also put clear signs on them.

31. This is why in the scriptures of the wicked God, he
 contradictory lines and different meanings. I expressed myself every
 time is in his scriptures. That's why another religious book is needed
 never saw it. His sacred scriptures are somewhere also my words
 and they carry the meanings of my words. That's why you should read them too
 with my look and the look I gave you and the understanding I gave you and drugged
 with your intelligence that is but is always in your possession.

32. And so while reading, you should learn to read double. In every letter and every very different meanings are hidden in words and in every sentence, and it is important to find and understand them. over time you will learn. And do not search in vain. There is no secret password in any text, calculus and symbol and sign because these are man-made and things to man and With the changed texts, those passwords gradually become meaningless over the centuries.

33. Such things are thought to be for human beings and according to human mindset. Gods they don't speak in words. The gods use your words to address you but this is not their native language. That is why the divine code in books is nonsense Your call. These are very small and worthless cunning. What to write is open is actually written. As long as you know how to look and see and understand.

34. Neither I have used them nor the Evil God. If there is evil God's holy a code in their texts or a hidden message that man will discover, the evil God's It is not from itself and has been laid down by humans over time.

35. I put my own secret meanings and words in every book. Know that bad God himself, but he cannot destroy them. When, through the mouth of his oracle Those words came out and were recorded, they are now permanent. Own claim

Page 7

shakes his greatness in the eyes of man, if the evil God said, "Satan is mixed to my message. This message has changed ". This is why I use my plugins The evil God could not interfere in his own books.

36. One time. He only had to do it once. Then I I forced her to openly praise the female goddesses. This is the proof that I want Time is obvious to you that I can intervene in his books and his prophets. to do.

37. This was done on purpose so that it could change it, and you understand that its books and that I could easily interfere with their prophets. This message was actually to you and your age, to your generation and to my people who are not the building blocks of the Evil God. And To my sons and daughters.

38. But if the evil God could afford to be humiliated and if he could risk my confusion to correct and to admit that there is a power other than himself if he could afford it and that there are other gods to say, then he can change and purely he could give his messages in his holy books. But because he always refused other god than himself and that he is "One" because he claims and he is very powerful. his angel and his prophet had to remain silent and acknowledge that he was My messages are in their scriptures.

39. But in time, after his own prophet dies, the secret half-priests and Religion they replaced brokers all scriptures. They removed the unwanted parts and they collected and burned. But still it remained My Influence because I am everywhere. That is why every religion of the evil God is essentially the same in essence and Every so much made so that they fight each other and feed their evil gods In his religion, after the first priests and prophets of that religion, every religion was corrupted, changed, It seems to you that you have been abused by humans.

40. Actually, this is the will of the evil God. He suggests this. Because! See every the later degeneration of religion. Isn't it the later version more overwhelming, more forbidden, more unhappy, more bloody and darker in worship. Actually this was what he wanted at its very beginning. I just made it more humane and more comfortable through the mouth of his oracles.

Page 8

41. And. Look, in every religion the original texts of the Evil God are not necessarily tampered with. Is it always. Here is the reason for them with my confusion to the oracles and by dragging them to encourage, to put my own words into the first, original form. This That is why, the first original form of religions has always been more humane, more happy. transmitting and light. It looks at divinity with a more open heart and gives value to man.

42. This war has always been fought in your history, secretly and openly, on two floors. Open one Have they not always slaughtered in battle, the children of the evil God and the seed of the third son only so that their gods may be fed my children by calling his name upon them. Have they not always been hostile to the seed of the First Son? Didn't they always attack science? art, free thinking, architecture, reformism and even in your day isn't it?

43. The secret war has always been between him and me. Your scriptures and its in the passing of his orders, in the establishment of the religions he wants and in the In the description.

44. And. Request. The Prophet and the Evil God who will be described here in this book that you have always wondered and called Jesus in your name because it did not seem very appropriate to his teaching, In your own language, it is the product of the prophet, this secret war.

45. Some mixed narratives in this and other chapters of my six-story book. there is. This is because of the prophet's mental curiosity and It is concentrated. But. No. He will not change and his verses according to your understanding. you will not list this book. My prophet can comment and explain everything properly but will not break the order of my Book and will not any arrangement as per. However, everything that will remain is exactly the same.

II

1. First and Second sons marry when they grow up to produce their generation It had to. And it was desirable that the second son's offspring would hastily multiply. Should have stopped first Reproduction of the Son. There was a silly and collusion selection ceremony among the sons. As it is written in their scriptures, the evil god's offerings were given to the evil god.

2. There was also a delicacy here. They always say that the first to kill is the First Son in the world. However, it is the second son to kill first and offer his blood and soul to the evil god, by killing and sacrificing animals. He had to be killed in the end second by your son, the First Son. It was a condition for man to reproduce as human and only for the evil god not to have a tool.

In the book of the 3rd Arab, there are stupid and false narratives here, too. Supposedly First Son, when he killed the blood of the wicked god, his dead body, and a bird guided him by burying another bird, your second son to hide the dead. What a silly and false narrative. Didn't know dying and what dying is supposedly people until then. What about animals that were sacrificed until then? either animals hunted by the second son? Aren't they dying? How he wouldn't know human death and killing until then?

4. Who taught the second son to kill animals? Animals in the name of the wicked god to slaughter and offer her blood? Even here the evil god is liar and bloody Isn't his character obvious? Isn't he himself who gave the second son the killing and blood drip and hunt? Who taught herding, not looking at times, animals cultivating and building? I gave it to him. And never killed the first Son, other than what must be done.

5. When the second son died, he buried him the First Son, but that the second son was rather new While his death, the necessary building blocks and sperm were taken from his body by the evil god. These building blocks were meticulously kept by the evil god and enriched and has been developed by its own existence.

6. All prophets descended and passed in time. They were always from the same family. The lineage of prophets was the most efficient and good antenna, eliminated from among the breeding people. the possible ones were sorted and selected and produced. And over time, with each new generation a little more the descendant of the corrupt oracles. The evil god's curse and disaster are now unable to answer requests. Their bodies could not stand the energy coming from him.

7. Each new seer was slightly less effective and slightly weaker than the previous one. and every new oracle was more corrupt. And generations of the chosen oracles had become incapable. Because even though their bodies and structures looked smooth from the outside, they were deformed.

internally. By transmitting the energy of the evil god they were weakened from generation to generation and by receiving revelation from him and directly exposed to his energy.

8. It was time for a new and powerful oracle to rule. Future

this oracle would be as the wicked god intended. And the servants who do not think to him
 He would prepare. It would be stronger than them all and more ruthless and bloodier
 It would be. Be bearer of new and great curse and kill them all. Mine
 The Oğularım. This oracle was prepared with the building blocks from the second son. And to him
 godly powers were given. He would have the shadow of the evil god on earth. Blood and fire
 he would be wherever he stepped.

9. And. But these building blocks and sperm were not supposed to interfere.
 your son with another human. The evil god gave birth to this child without a human father. How,
 If he had injected this sperm into his mother, the evil god could give him the same
 the male and the birth and conception would also be normal for you, the New Oracle.

10. If this has not happened, it is only for obvious reasons, now you will learn. It was bad
 God seed first to a man and before he realizes the seed and the building blocks would mix
 by the man's own existence and building blocks. The second would be spoiled
 your being taken from the son. And the divinity given by the evil god will be broken and
 he would mingle with the man who would become a father. That is why he was born without a father.
 For the qualities of the desired oracle he should have been born as such, and
 was his evil god.

11. Nevertheless, human qualities were confused with him because growing in a woman's womb.
 It was difficult. The mother's nature confused her, but she was the purest child born in the world,
 because only the mother had attributes and her divinity was slightly distorted.

12. It has been the most curious situation for you for thousands of years. How he was born without a father
 seer? This was so unbelievable to people in previous ages, however
 It is an easy task for the gods.

13. The seeds of the second son where they were preserved and cultivated in the Garden of the Gods
 never left. As you know, it breaks down into molecular, from one place to another,
 It was not sent to the mother's womb. The mother woman, of the Garden of the Gods

well, they were also in the same place. When realms change, an object, exactly it would be in the other. At that moment the transition between the realms was made to seed and in a moment The seed was inside the mother.

14. This is how a child was born without a father. The last oracle was in the mother's womb now. But this is not just the preparation of the oracle. Earlier those to watch and direct him were prepared.

15. If I left it would be the end of all my people, as he was his new oracle. Certainly I intervened in Kahin's mother while she was moving during her pregnancy. and I impressed the Child of Evil he carried. Like every human being in the mother I transferred my own building blocks to the baby and influenced his balance.

16. As I have made clear to you, Jesus was planned long ago and when the time comes was waited until. Superior powers and superhuman devotion and faith were given to him, to the god of terror. He was a very special building block of the evil god. How is Jesus if prepared carefully, the woman and the mother who will be its carrier when its time approaches. was also specially prepared.

17. The surrogate mother was an instrument of her god, although she herself did not know it. But in the female the conditioning of man, the evil God, was weaker from Eve and always until your day. Surrogate mother was stronger than other women, to her god with regard to faith and faith, but still the building blocks of the evil god were not strong. he is like male prophets.

18. The humanoid aspects of the surrogate mother and the female gender of the evil god have always been excluded and Reasons like his inferiority had made mother close to me and I impressed with her the baby she carries and the mother's humanoid side and the mercy and protection of her baby transmitted attitude to the baby, protective and loving attitude towards all people as. A little effort was enough for this, and the evil god's greatest It was his fault to ignore and exclude and ignore the female gender.

19. Not only mother was prepared, helper and protector for Jesus to come, and as the guardian. Preparing the surrogate mother and empowering her, your a watchers and guardians who were prepared much earlier with your time and the people of helpers.

20. The surrogate mother was also given great powers, but these were passive powers. Itself He did not realize his strength, but he was energized. There is more to protect the baby that she did not give birth to, which she carries in her womb and with her own energy the instinct to nurture and strengthen had made him a source of healing, actually bad Although this is not God's purpose. The surrogate woman is healing and vigor only by her own presence. he could give to his surroundings. This energy of her can also be applied to the surroundings of her own living places. It is permeated and can be felt even in your day.

21. The energy and healing power in the mother, which is actually just the fetus and then the baby Jesus was given to him to protect and strengthen, I He carried protective and healer qualities to the fetus as he passed on to the baby because I spoiled it. This That is why more people than any priest loved Jesus, and that is why Jesus His healing power would spill around him more than any other prophet. According to the first plan, this It did not matter if the qualities were all that were required, the only belief and the antennae and the disasters. was the ability to create.

22. Not a tribe in the desert, but a small tribe long ago lived, from the birth of the surrogate mother herself. These desert people were their servants, bad God's and all his prayers were only approved. These people were out of sight and they would not interfere with other societies unless they had to.

23. A child in the desert people of faith has many more building blocks and beliefs possessed the evil god. That boy became his secret oracle. This seer is never holy not seen and mentioned in the books of Jews and Arabs. Even legends They couldn't get too close to him.

24. This tribe and soothsayer were kept secret by the evil god. Amongst themselves they reproduced in time, and the progeny of the oracle bred with them. The evil god appeared to him and a He made a covenant with the desert people. This time the wicked god declared his many wishes and goals and some facts to the desert people.

25. Always “Just me. I am the only power and I am the only god.

He explained to the desert people for the last time that I was besides himself. Just me that I need my strength and their help to stand against me.

26. They knew that there were two forces of desert men and two gods. They are in two armies

Like soldiers fighting, the enemy knew what they remembered. The evil god nurtured them, knowledge

He gave and told them about Jesus who will come. Told how to support and

He gave them the essentials of the religion that Jesus would bring to them long ago.

27. The evil god has made a secret pact with the desert people. Heaven and eternal peace and

He promised them happiness. This pact, or covenant of the evil god, remained secret. he did not interfere desert people remained out of sight of other people and from other people's knowledge.

28. To protect the lineage of these people and to help and support Jesus,

they scattered around the world. And they waited for Jesus' time to come. More

while Jesus himself did not know what kind of religion to bring, and even he is still the Gods.

With a protected building block and a piece of gene in the Garden, desert people

they knew what kind of religion he should bring and that he would come.

29. When the time came and was born Jesus, the Desert People were always around

to him and other people without revealing themselves. Activate and keep active

other priests were also waiting for Jesus' energy. Never

they were not, and never were these oracles as strong as Jesus. Their strength

it was only limited, and still limited, in taking orders from their gods and human

by influencing the thought and faith of its mass.

30. When Jesus climbs the mountain to get the final effect his mission needs to begin,

Along with the power of his god, he also encountered My Influence. We meet her very

differently and incorrectly reflected in the scripture of Christianity. Never bargain

was not offered with it or anything. Just to live humanly and

beauty was made to him. But the most important is the humanity in it and what I add

the building blocks were warned to him unnoticed.

31. Jesus' understanding changed and his inner humanity and humanity rose to the surface.

Now it was far from the first structure that his god wanted, but he did not know that.

Page 14

It is no longer the way to be a prophet of that horror, but a carrier of love and tolerance was on his way. And in doing this to the god of evil who fathered him He thought he would serve, and the god of evil was the greatest of good. In the eyes.

32.And when the wicked god noticed the condition of Jesus, which he immediately realized, he withdrew his hand From Jesus and his protection and supervision. Changed immediately thanks to Jesus the plans he will realize.

33.He did every miracle Jesus preached to every man and it was thanks to the divine power that was given to him and remained in him but he thought that the father god is helping him.

34. Jesus lived his sermons as his father's will. He lived humanely and He gave his true sermons, which were later changed. I am instead of the evil god He who made my mission was My Oracle. Very nervous at times, at times Jesus was also very soft. This is the gene and DNA and other building blocks in it mixture from the dash. Actually the two effects on him were equal, If I was heavy, this it was because of the human aspects in him.

35.And neither his god was pleased with the condition of Jesus, nor was the Desert people overseers and secret oracles of the evil god. That's why he had to die Without spreading Jesus' teaching too much. If she lived, with the power given to her He would gather people and spread his religion so that even the power of the evil god It would not be enough to shake him and it would spread, in fact, the understanding that is mine.

36.And to be crucified was therefore both punishment for Jesus and it was the cleanest way to get rid of it.

37.And only that he was not with his father god and that he was abandoned Immediately before his death Jesus understood and could not understand the reason for this only, "Father, why did you leave me?" to the god who did not want to hear him.

Page 15

38. Actually Jesus, the last prophet described in the Old Testament. And the plans changed when I got mixed up and the coming of the last priest and the plan that will wreak havoc on humanity, was postponed time.

39. The Romans physically killed Jesus, but they were really just a tool.
It was his own paternal god who killed him, who sacrificed and wanted him to perish and they were actually his secret prophets.

40. And the secret oracles from the desert men immediately took over the teaching of Jesus. They changed all teaching to the wicked god's will. They banned love, sex, happiness and joy. Who never knew Jesus and is one of the building blocks of desert men another prophet founded the Christian religion. And the secret lineage of desert men, always they held the rule of this religion in their hands.

41. They made interpretations of Jesus' teaching that he did not know or think about. They made a religion of horror and blood Christianity and committed murders in Jesus name centuries. And they hid from the people, every knowledge that was found by Jesus and his teaching about. This is actually a large part of their main task.

42. And they scared people with Me for centuries and frightened people from Me, they fed their evil gods and their evil religion. They excommunicated people for centuries and nobody asked them this work they did in Jesus name, how many times while Jesus lived He was doing. Nobody asked them how many inquisition courts Jesus set up, how many that you burned people alive once and how many witches and how many other religions killing people. Actually, the answer to these questions is nothing. Jesus didn't do and didn't think even these.

43. And if he had seen and knew Jesus would not have known the witch-hunts of the church established in his name and He never wanted to experience his massacres in this world, these religious brokers as their false gods they created, and as the shadow of the evil god on earth.

44. And he tried to do what was the purpose of Jesus' creation but never did it the church established in his name. In Europe and anywhere in the world they can reach my building they slaughtered those who carried my stones and descended from the First Son. the inquisition They established. They killed many of my people and their own people indiscriminately and they tortured the evil god for energy.

Page 16

45. Now you think that, and you think that their power decreased with the past years. They can no longer pressure people. And that's not the case. Secret oracles that many Their power has decreased, they are still active. Still working for their sneaky plans and secret organizations as they spread. They want, the development of the power of the evil god, and feeding their gods. For this big fire that will burn everything is the best in their eyes.

46. The Secret and Minor priests and their antennae are the great expectations of the evil god Jesus who will come again. Jesus as the commander-in-chief of the evil god and his future time Jesus, whose name will be different, will indeed come, because he was taken from Abel and hidden. Not all of the building blocks were used for the slain Jesus.

47. The world is being prepared by the evil god and small and secret priests, the parts they have and their people. A prophet of terror will come again From the structure, genes and DNA of Abel. And he will be in chief, my In the war against my sons.

48. And I have a weapon and precaution against it. As the evil god hid in his garden, the structure of Abel, I bought the structure of Jesus at the last minute. parts, after his death. For the coming of the evil god, the oracle of terror I will take out my own son from the building blocks of Jesus and my own making and from my godly soul. This will be against goodness and beauty and science and art, horror is a battle of blood and death.

49. I can take off without the building blocks of Jesus my own son and the bloodline of Cain intact form. But the building blocks of Jesus, both the effect I gave at that time,

they both carry the divine powers of the evil god and are empowered and
they are informed, and they grow by taking my divine powers for centuries. And
